WHY IS WORTH STUDYING IN SZCZECIN?

Szczecin has a fantastic reputation for chemical and engineering sciences but here are a few more reasons why you should study here:

- » all our courses are developed according to American standards of education;
- » the Faculty has fantastic industry links with companies;
- » every year, huge funds are invested in the reconstruction of the Faculty's student, research and computer laboratories;
- » Szczecin may be far from Warsaw but it has an international airport and less than 150 km from Berlin;
- » there are two EU Special Economic Zones, the Green Chemistry Cluster and Technopark Pomerania.

BECOME A STUDENT OF WTIICH

We educate in English in the following fields:

- » CHEMICAL ENGINEERING
- » MATERIALS SCIENCE AND ENGINEERING

WHERE CAN A GRADUATE WORK?

- » As a graduate you may find attractive professional careers in Poland and abroad.
- » You can find employment in a range of existing sectors, including aerospace, automotive, energy, pharmacy.
- » Our graduates are specialists needed in the chemical and refining, natural gas treatment, rubber, food and heating industries.
